IT'S GOING TO BE LIT

A national prisoner strike has been called for August 21st, 2018.

We need to stand with prison rebels across the nation on principle; to show prison officials that people inside are not forgotten and that we will not sit idly by as people deteriorate behind walls; and that in fact, we're coming with more teeth than ever. We have the power to propel and uplift the voices of those held captive by the state, and we need to utilize our collective capacity to do just that and to make this strike historic.
